ABOUT US

With the experience of more than 20 years, Galaxy Polymers is very dependable recycled plastic granules exporter from Singapore. The great connection of manufacturing and supply has made our business on top as for as LDPE, LLDPE, HDPE, PP and PVC are concerned. We have many years of experience in sourcing and international trade of Plastic polymers. We like to expand our business with our quality customers.

Our reprocessed plastic granules are used commercially to manufacture wide range of plastic products. We work with recycled companies actively try to help our customers and suppliers to find a solution to their waste plastic problems but sometimes it is difficult due to the type of plastics they have to recycle.

OUR PRODUCTS

LDPE / LLDPE / HDPE / PP / PVC - Off grades, Near Prime, Recycled polymers in the form of granules, regrind and powder.
